

VALIDEV

YOUR TEAM FOR  
PROPER DEVELOPMENT

## Tools and technologies that empower our clients' business ideas

We believe that the most value is brought by modern yet reliable tools, development process automation, and high-security standards.

We choose the best technologies according to the complexity of the product, compilation of these provides speed, performance and uptime as high as the quality of the visual part.

We have more

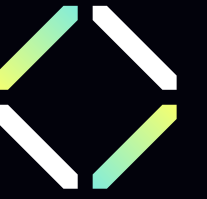

**than 8 years  
of experience**

of creating web-based solutions, using efficient development practices

Our specialization is the

**flexibility and  
ability to delve**

into complex tasks requiring special attention or special qualifications

## Development

- > WordPress
- > WooCommerce
- > Custom CMS and E-Commerce creation
- > CRM & SaaS platforms
- > Single Page Applications
- > Third-party API's integration

## Optimization

- > Loading & Performance
- > Pagespeed, Lighthouse, GTMetrix
- > WordPress security improvements

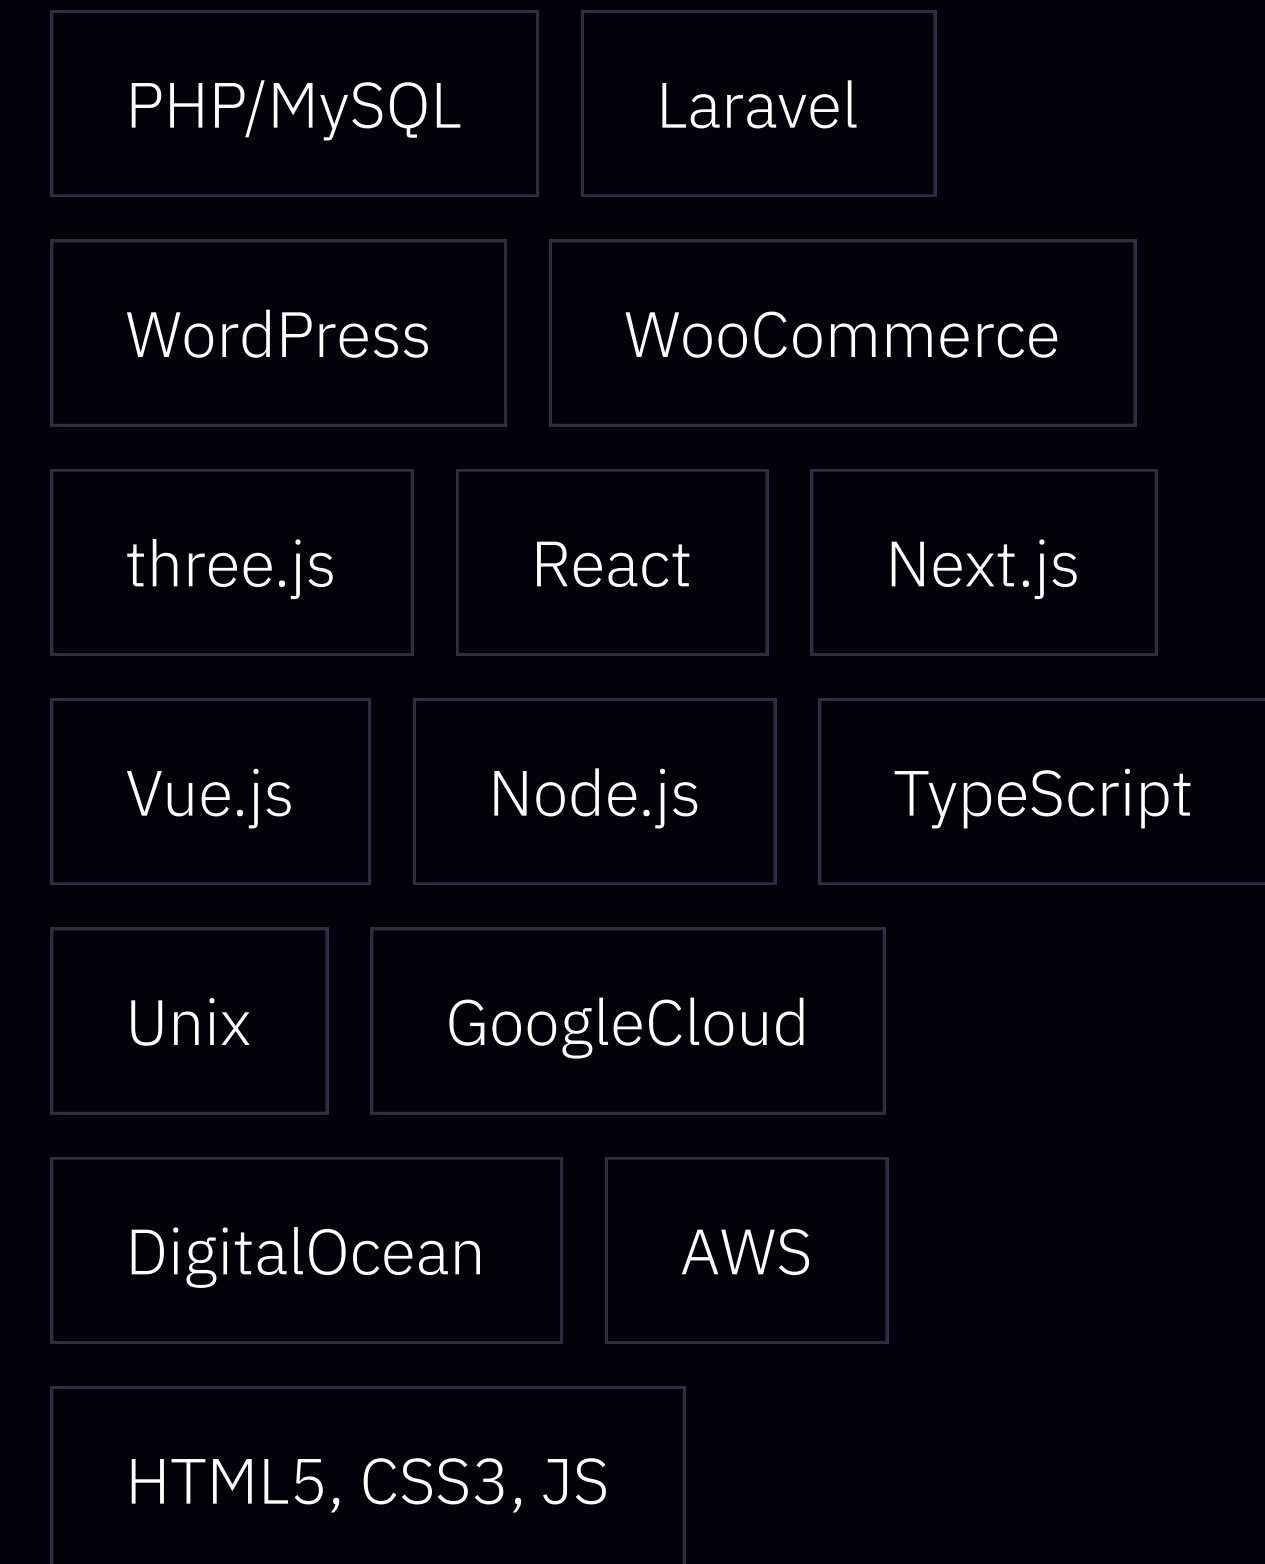

## Support & Hosting

- > Unix Server & VPS managing
- > Cloud Services
- > GCP / DigitalOcean / Cloudflare
- > CI/CD
- > Hosting Support
- > WordPress Support
