

ASTROBLISS

ADMIN PANEL & WEB MANAGEMENT SYSTEM

Overview

To efficiently manage thousands of users, astrologers, consultations, payments, and reports, we developed a powerful web-based Admin Panel.

The admin system provides complete operational control over the entire AstroBliss ecosystem

Product By :-Vigorous IT Solution

Business Objective

The admin panel was designed to:

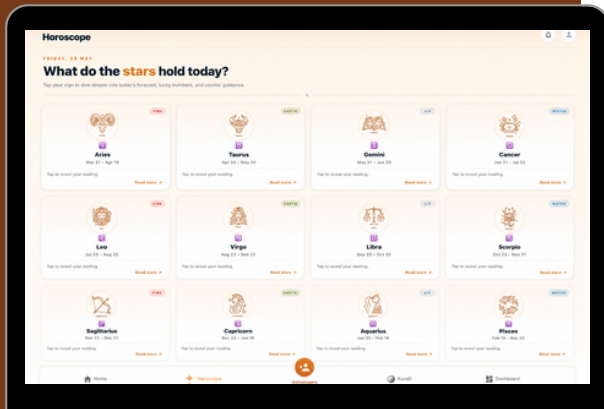

- Manage users
- Verify astrologers
- Monitor consultations
- Handle earnings
- Manage withdrawals
- Publish content
- View business analytics

Dashboard

The dashboard provides real-time business insights including:

- Total Users
- Total Astrologers
- Pending Approvals
- Consultations
- Revenue
- Commission
- Withdrawals
- Earnings Analytics
- Session Volume

Admin Modules

User Management

04

Content Management

- Blogs
- CMS Pages
- Notifications
- Bhajans
- Reviews

05

Automation & Reports

- Notification management
- System alerts
- Admin communications
- Revenue analytics
- User growth
- Consultation reports
- Earnings statistics

06

Challenges Solved

• Business Analytics

Designed dashboards that give management complete visibility into platform performance.

• Role-Based Access

Implemented separate permissions for:

- Super Admin
- Sub Admin

• Financial Tracking

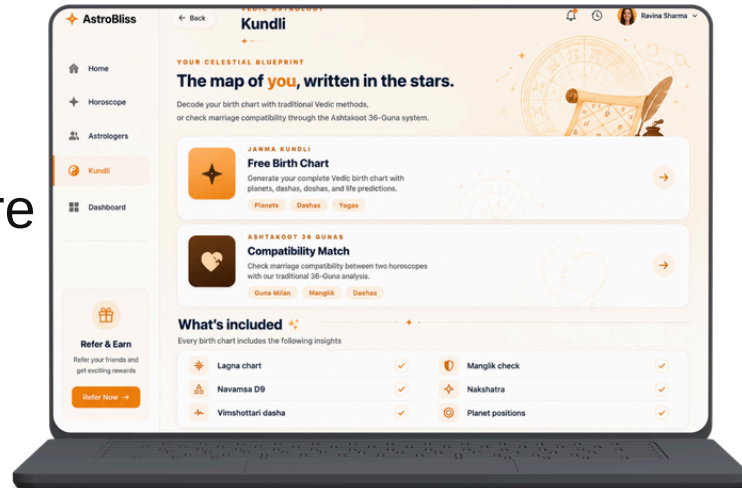

Built detailed revenue, commission, and withdrawal management.

• Scalability

Admin panel designed to support increasing numbers of users and astrologers.

Results

- ✓ Centralized Management Portal
- ✓ Real-time Dashboard
- ✓ Financial Reporting
- ✓ User & Astrologer Verification
- ✓ Content Management
- ✓ Scalable Admin Architecture

Technology Stack

- **React.js**
- **Node.js**
- **REST APIs**
- **MySQL**
- **JWT Authentication**
- **Firebase Notifications**

My Contribution

- ✓ **Dashboard Development**
- ✓ **Analytics Module**
- ✓ **Financial Management**
- ✓ **Role & Permission System**
- ✓ **API Development**
- ✓ **Testing & Deployment**
- ✓ **Complete Admin Panel**

Development

THANK YOU
