 DOT™

DOTTM

NO-NONSENSE VIDEO AGENCY

DOT is a no-nonsense video agency crafting content that hits the mark. Since 2018, we bring creative concepts, bold production expertise and deep industry understanding; all tailored to your brand. Our team of top creative specialists combines experience, insight and a hands-on approach to deliver work that truly stands out.

OUR *Boutique* APPROACH

No-nonsense, the client always comes first. That's what we call the 'boutique approach'. With DOT, a seamless execution is a given, even when deadlines seem impossible. You work with us for assertiveness, creativity, fast decisions and above all: a close partnership.

At DOT, we thrive on challenges. With creativity, a human approach and smart use of AI, we streamline production and keep your brand moving forward: always ahead of the market.

DIRECTORS VISION

Every project starts with one question:
“Does this truly resonate with our audience?”

From there, we craft bold concepts that connect emotionally and stand out visually. We love taking on creative challenges; pushing ideas further and exploring new ways to tell a story.

We work closely with our clients, stay flexible, efficient and collaborative throughout the process.

Our goal: to create work that moves people, feels human and leaves a lasting impression. That’s when we call it: ‘Made by DOT’.

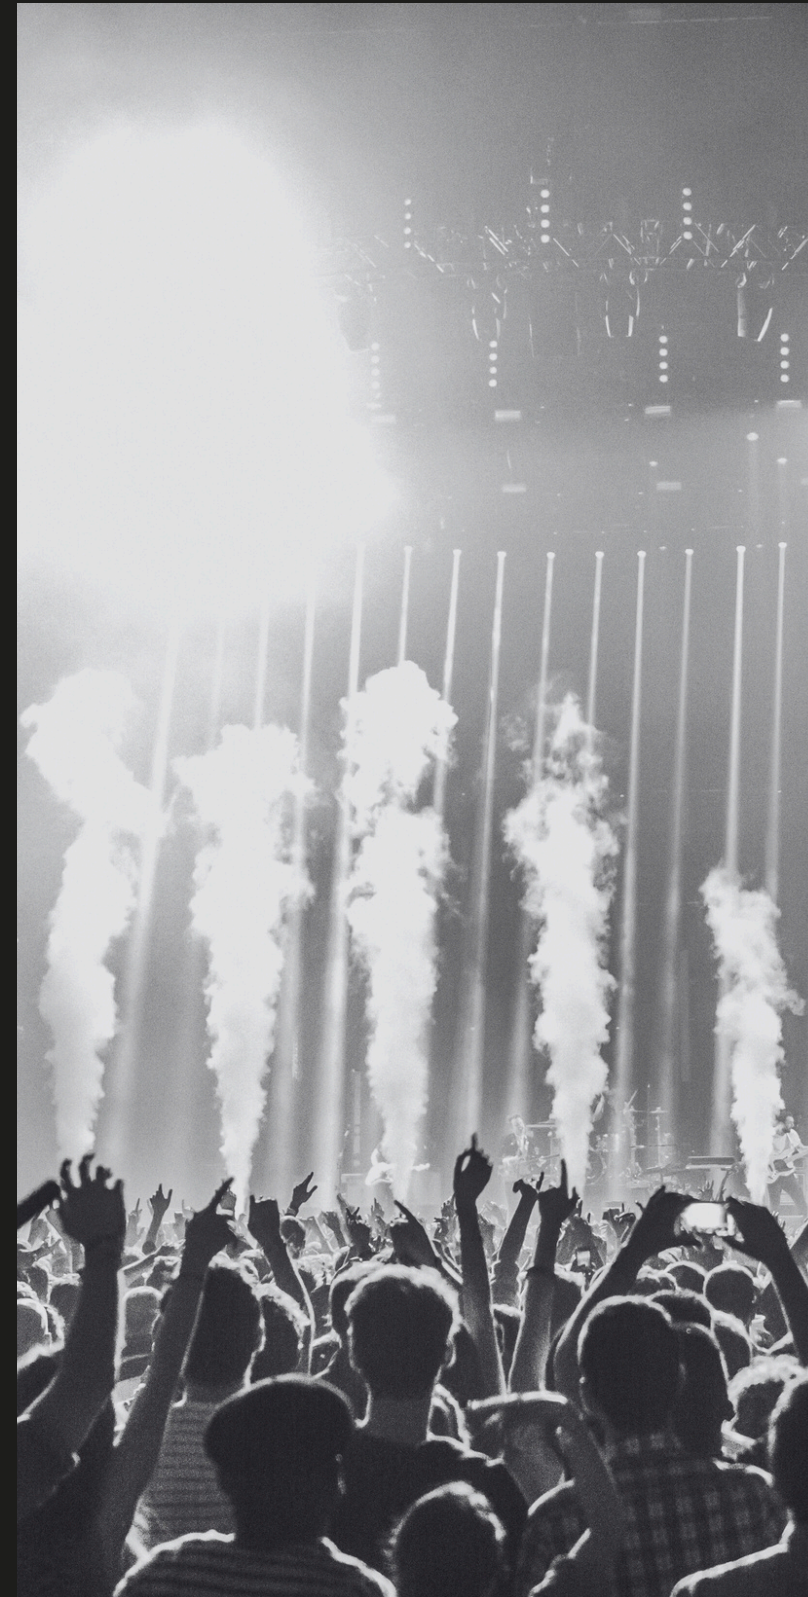

OUR SECRATIVE USP:

CUSTOM MADE MUSIC

The founders of DOT actually started out as music producers, before making videos. Music and sound is in our DNA.

We believe music defines emotion. It makes visuals come alive, strengthens identity and leaves a lasting, impactful impression. A new demension in videos. That's why we create tailor-made tracks that perfectly fit each brand and story.
