The Highest Quality

## Front-End Development

Our frontend developers embrace and utilize the latest versions of the modern JavaScript frameworks. We apply them to tackle complex business challenges and deliver a second-to-none experience for end-users.

Whether it is a simplest web app or comprehensive enterprise-sized platform, our web designers will put their tremendous efforts to produce creative & eye-catching designs at a reasonable rate.

## Back-End Development

Our developers are ready to help you with the scalable back-end solutions for complex web applications and portals, as well as some other services. Also, Parsition GmbH is ready to integrate your existing legacy systems with third-party services and web applications.

Our backend development services include but not limited to building backend solutions that enable elastic computing capacity and allow your systems to have great scalability, including the one on cloud platforms. Also, we provide migration of back-end systems to cloud storages.

## Parsition GmbH Web Development Benefits

### Non-Precedent Attention To The Security Of Your Data

We put a great effort into providing high-class security level for every web application. Most of our clients care a lot about the safety of their web services, and we always do our best to deliver products that will go in line with their expectations.

### Following The Latest Trends In Web Design To Create Amazing UX

The further technological development goes, the more demanding end-users become, especially when it comes to the interface. We place a great emphasis on providing your customers with outstanding usability. Take a look at our UX/UI services for more information.

### Creating Highly Scalable Solutions

In most web applications, scalability tends to be one of the weakest spots. As your website gains in popularity, the number of users grows. In such a case, it becomes crucial to provide each end-user with bug-free experience, which is one of the main priorities of our developers.

# Mobile App Development Services

**Parsition GmbH** teams deliver highly performative, digitally transformative, and feature-packed mobile applications designed to work across all major platforms. Being a mobile app development company, we offer our expertise for businesses that are willing to deliver services faster, improve sales numbers, increase customer engagement, drive more attention to the brand, and enhance client loyalty. With Android, iOS, and cross-platform development services on offer, we ensure our clients receiving the ability to reach customers on any mobile device, whether it is a smartphone, tablet, smartwatch, smart TV, etc.

# Mobile App Development Services

WHEN DEVELOPING APPLICATIONS FOR SMARTPHONES AND TABLETS, WE PAY A LOT OF ATTENTION TO EACH DETAIL, CREATING SOLUTIONS THAT FULLY GO IN THE LINE WITH OUR CLIENT'S EXPECTATIONS AND REQUIREMENTS. THE RANGE OF MOBILE APP DEVELOPMENT SERVICES WE OFFER INCLUDE:

- **Custom Mobile App Development**
- **Cross-Platform App Development**
- **Integration Services**
- **UI/UX Design**
- **Business Analysis & Consulting**
- **Testing, Support & Maintenance**

# Mobile App Development Services

## Industry-Minded Solutions

- KEEPING AN EYE ON THE LATEST TRENDS IN MOBILE APP DEVELOPMENT, ELINEXT TEAMS DELIVER SOLUTIONS THAT PRECISELY ADDRESS THE MODERN REQUIREMENTS ESTABLISHED IN DIFFERENT INDUSTRIES.

**MHealth** - The future of healthcare accessible with a single solution offering seamless access to shared data, resources, and common infrastructure.

**Connected Living** - The convenience of effective management of various processes achieved with real-time information coming from connected devices.

**MCommerce** - Advanced shopping opportunities with an emphasis on personalization available in the convenience of any internet-connected device.

**Enterprise Mobility** - Availability of corporate data, advanced security, access to crucial working processes, and enhanced management within a single mobile application.

**MBanking** - Enhanced banking experience coming from advanced security, user-friendly interface, personalization of services, and convenient account management.

**Social Connection** - Solutions fostering social engagement, creating and nurturing relationships across different nations and generations.

# Mobile App Development Services

## Types Of Applications We Develop

● REGARDLESS OF A PLATFORM FOR WHICH A MOBILE APP IS TO BE BUILT, AND NO MATTER THE DEVICE IT IS TO BE USED ON, ELINEXT TEAMS WILL MAKE IT WORK FOR YOUR BUSINESS SUCCESS. OUR MAJOR FOCUSES ARE:

**Mobile Apps for iOS** - Combining all the best practices used by app development companies, Parsition GmbH builds mobile applications for iOS that correspond to the growing demands of tech-savvy Apple users. Having deep expertise in building top-notch, feature-packed solutions for iOS, our app developers ensure prosperous presence and competition in the App Store for all applications delivered.

**Mobile Apps for Android** - Taking advantage of Kotlin, Java, Android SDK, NDK, and other advanced tools and technologies, Parsition GmbH app developers build reliable, highly-performative mobile apps operating across a wide variety of devices that utilize the famous Android OS platform. Featuring everything from well-thought-out UX/UI to custom features, we deliver apps for Android that allow our clients to stand out from their competitors by offering a unique mobile experience.

**Cross-Platform Mobile Applications** — Parsition GmbH mobile app development teams get the most out of React Native, Xamarin, Flutter, and other technologies to deliver cross-platform apps that work smoothly across different platforms. By complementing each solution with diverse integrations, by adding custom features, customizing and personalizing, we ensure that each app delivered will offer close to native experience regardless of a platform it is used on.

# WEB Development Services
