

# KRABU GRUPP

**10 YEARS** of experience  
in providing digital transformation  
services.

Krabu Grupp offers the creation of complete turn-key solutions and various digitalization service packages for organizations with different levels of IT maturity. We carry out digital transformation projects for enterprises and public sector organizations in Estonia, Ukraine, Finland, and Tanzania.

Our team comprises highly experienced and proficient specialists with international project expertise: business and IT analysts, project managers, software developers, UX/UI designers, and QA engineers.

Krabu Grupp headquarters are located in Tallinn, the IT capital of the digital world.

## We provide

- + IT project management
